

Supply List for Embossed /Patterned/Burnt Gold Workshop

In order to try this technique, besides the usual basic metal and enameling tools, additional materials will be needed.

Enamels-

- assorted leaded or unleaded enamels of your choice (one opaque black would be good)
- counter enamel for the pieces
- if you want an unleaded-2110 Thompson Wax Yellow is a good transparent
- NS 190-2 oz-<https://www.enamelartsupply.com>
- NS G110-2 Oz-<https://www.enamelartsupply.com>
- 2015 or 2020 flux -2 Oz- <https://www.riogrande.com>

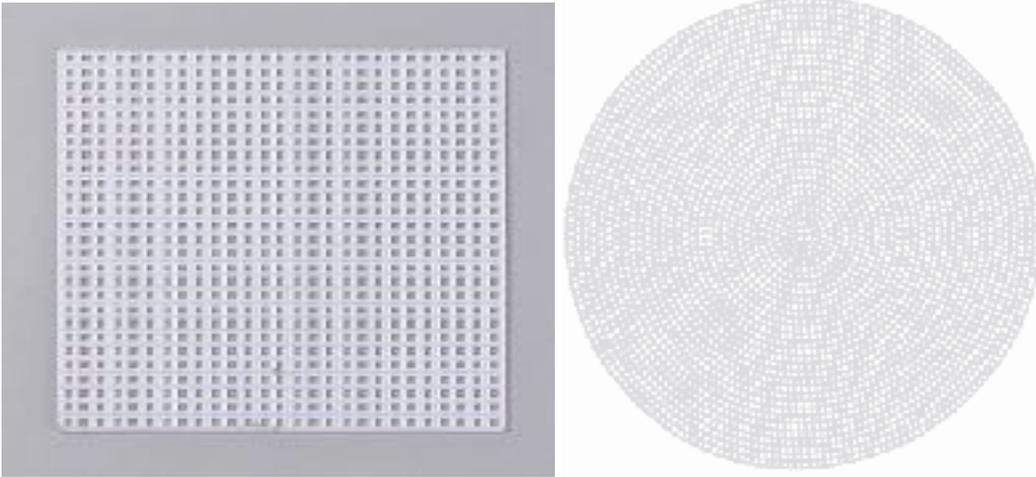

Tools-

- 1 each 100 and 200 mesh 2 inch enamel sifters-<https://www.enamelartsupply.com>
- 1 220 diamond pad-<https://www.enamelartsupply.com>
- a fine mist sprayer (can be a small mister, spritzer –needs a fine spray)

Additional materials-

- 1 sheet 24 kt gold foil-<https://www.enamelartsupply.com>(more if you want to work on many pieces or work bigger (My first classes said they wished they had ordered more!))
- A few sheets of gold leaf- the XXX from this vendor is especially nice-<https://www.goldenleafproducts.com/order-24k-gold-triple-leaf.html>-But almost anything you already own in a LOOSE-NOT PATENT- real gold leaf-not imitation or composite!!
- 1 pkg woven fiber discs-<https://www.riogrande.com/product/woven-fiber-4-1-2-kiln-disc/350049>
- some klyrfire 4 Oz
- A-13 acrylic medium -2 oz https://www.enameling.com/Material_Supplements.html
- small square of 220/280 wet and dry sandpaper
- some dawn detergent
- small 6 inch piece of copper/iron binding wire-thin gauge20/22-not critical
- 1 sheet mica-<https://www.enamelartsupply.com>

- several small jewelry scale pieces-20/22/24 gauge-these can be slightly domed or hydraulic pressed or flat
- some paper stencils (these will be explained so wait to get)
- plastic needlepoint canvas (Jo Ann's or Michaels/circular or square)
[plastic needlepoint canvas](#) But looks like this—Round is fun

These things go without saying that are needed

- Kiln and all the firing equipment
- A method for cleaning copper that has fire scale-container with Sparex or acid of your choice, copper tongs
- green scrubby pad
- Comet cleanser

Extra but not necessary-

- set of grade sifters kit 725 <https://www.cooltools.com>.
- small pieces of deeply etched copper

In my last Zoom of ALL THAT GLITTERS-I showed some things I use in my studio that I am particularly fond of. You will see these during the demos . Instead of having to stop and ask for particulars, I have included this to make it easy for you to order if you care to.

This is certainly not required- but we all love new materials and tools!!
